

Cosmo Instruments Co., Ltd.
Cosmo Group Calibration Laboratory
2974-23, Ishikawa-machi, Hachioji, Tokyo, 192-0032, Japan
3 June, 2020

Announcement: Cosmo updated an Accreditation of ISO/IEC 17025:2017 from ISO/IEC 17025:2005

Dear Customer:

Thank you for your continued support and loyalty to Cosmo Instruments.

We Cosmo Group Calibration Laboratory got an accreditation of **ISO/IEC 17025:2017** as a **Pressure Calibration Laboratory** on 3 June 2020 by JAB (Japan Accreditation Board) instead of that of 2005.

Accreditation Body:	JAB, Japan Accreditation Board
Accreditation Scope:	Mechanical (Flow, Pressure)
Certificate Number:	RCL00350
Accredited Services:	Pressure Calibration, Flow Calibration
Calibration Items: (both in-house and on-site available)	Digital Manometers, Air Leak Testers, Pressure Switches, Bourdon Tube Pressure Gauges Gas Flow Meter (DF-2800 / DF-2820 Series, AF-2200 Series), Rotameter, Leak Master, etc.

With the accreditation to ISO/IEC 17025, Cosmo is now capable of providing more trusted calibration results and widely accepted calibration certificates throughout the international communities where the MRA (Mutual Recognition Arrangement) for calibration and measurement certificates are in effect.

Accreditation to ISO/IEC 17025 is important to our customers in specific industries where is required, recommended or suggested in there Management System Standards, such as the IATF 16949 for Automotive Industry. ISO 13485 is for the Medical Device Manufacturing Industry, and it has a tendency that the companies or government offices which manage JIS, The UL designate an accreditation of recognized ISO/IEC 17025 manufacturing processes.

We are committed to better service to you by providing reliable calibration services as much as reliable Leak Testing products. We will pursue to respond to your expectation as much as we can.

Please note that our 17025 calibration certificates are equal to those which issued from Japan Calibration Service System (JCSS) accredited by National Institute of Technology and Evaluation (nite). **Cosmo Group Calibration Laboratory** is a part of Cosmo but has independent mission dedicated for providing quality of calibration services. Please contact your local Cosmo representative for calibration of your Cosmo products.

Sincerely,

Koji Mori
A manager of Cosmo Group Calibration Laboratory
